Akshay Gaikwad

Aspiring Developer | Experienced Automation Engineer.

Professional summary

As a self-motivated and adaptable Engineer with 2+ years of industrial experience in the Testing field, coupled with a background in freelance development, I am now eagerly transitioning towards a full-time role in development. My passion lies in collaborating with individuals from diverse regions of the world, leveraging our collective expertise to create impactful solutions. I am excited about the prospect of joining dynamic teams and contributing to projects that transcend geographical boundaries.
